

## The SEO Trick Google Doesn't Tell You (Rank Page One for Free)

If your business isn't on Google, you're invisible to prospects—and losing leads daily. In Vaughan, Richmond Hill, and Toronto, many great companies fail simply because they lack SEO.

### Why Most Businesses Don't Rank

- Treat SEO as a checkbox: website + keywords = results (wrong).
- Google demands technical strength, local relevance, and real answers.
- Cheap SEO = wasted money, ads = short-term fixes.

### The Winning SEO Strategy

- Audit First : Identify and fix technical issues.
- Target Local Keywords : "Plumber in Richmond Hill" beats generic "plumbing services."
- Google Business Profile : Optimize listings, get reviews, enter the Map Pack.
- Customer Intent : Focus on what real people search, not high-competition terms.

### Why SEO Beats Ads

- Ads stop when the budget ends; SEO keeps working.
- Results often visible in under 90 days.
- Sustainable traffic and leads without constant ad spend.

### Affordable, High-ROI SEO

- No Fortune 500 budget needed.
- Smart local SEO = efficient, measurable, and scalable.
- The right partner delivers lasting visibility and growth.

### Don't Stay Invisible

- In Vaughan, Richmond Hill, and Toronto, competitors are climbing.
- SEO can be your unfair advantage.
- MRKT360 helps businesses rank, convert, and grow.
